# *magic & memories*

Our enchanting house and its rich wooded grounds set the perfect backdrop for your magical day.

We can offer support in planning – from the menu, invitations and flowers to music and photography. We are careful to give you just the right amount of support – enough to keep your day running smoothly without intruding on those special moments.

We can tailor the whole experience to suit your requirements as Kelham House provides the flexibility to entertain your guests with a small wedding breakfast for 10, or have exclusive use of the hotel for a wedding reception for 150 when you book the Garden Room suite. If you prefer an outdoor experience, our beautiful gardens and parkland are the perfect setting for events of up to 500 guests.

**Arrive along the tree-lined driveway** to Kelham House Country Manor Hotel – a stunning venue where the chance to sparkle and shine in style on your magical day is all yours.

Based in Kelham near Newark in Nottinghamshire, Kelham House is steeped in tradition, history and Edwardian charm. Dating back to 1903 the house sits proudly on nine acres of informal gardens, woodland and paddock land, all overlooking the open countryside.

Our hotel, with the Kitchen Garden restaurant, lounge bar and fully licensed Garden Room suite are ideal for hosting both civil ceremonies and wedding receptions.

Together with the Coach House, Kelham House offers 12 individually designed bedrooms for your guests including a special bridal suite.

# *gardens & glamour*

**The Garden Room** is a purpose built function room created to compliment the main house and grounds. It's flexible and licensed for civil ceremonies.

When we designed the addition to the hotel we were determined to make sure it complimented the old, while working harmoniously to give a style, elegance and finish that has become quintessential to Kelham House.

The Garden Room sits perfectly at the rear of the hotel with its own private driveway and water fountain. The traditional oak doors contrast with panoramic glazing allowing you to take in the views of the rear gardens, our natural sandstone patio and the open countryside views beyond.

The Garden Room offers a real mix of modern and traditional, from the air-conditioned room with integrated media equipment, private bar and washrooms to the silk curtains and crystal chandeliers creating a unique atmosphere.

Offering a fresh self-contained space for up to 150 people, the Garden Room brings a whole new dimension to the house – a modern and contemporary area that can be enjoyed privately by the whole family.
